DETAILED ACTION

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

1. Formal Matters

- A. Amendment J, filed 6/19/02, has been entered into the record.
- B. Claims 91-109, 112-114, 116-123, 125-132, 134, 135 and 137-143 are pending in this application.
- C. All Statutes under 35 USC not found in this Office Action can be found, cited in full, in a previous Office Action.

2. Claim Rejections - 35 USC § 112, first paragraph – written description

- A. Claims 97-102, 109, 112-114, 123, 137 and 143 remain rejected under 35 USC 112, first paragraph, and claims 138-142 are also rejected for the reasons already of record on pages 2-3 of the Office Action dated 3/12/02. In Amendment H, filed 12/10/01, claims 138-142 recited, or depended from claims which recite SEQ ID NO:1. However, in Amendment J, filed 6/19/02, claims 138-142 recited, or depended from claims which recite SEQ ID NO:11. Therefore, claims 138-142 are being included in this rejection under 35 USC 112, first paragraph, since they now recite "SEQ ID NO:11." Applicants argue that they were in possession of SEQ ID NO:11 at the time of the invention and that patent law does not require Applicants to limit specifically their invention only to embodiments reduced to practice. Therefore, for example, constructs such as the full-length receptor and chimeras using SEQ ID NO:11 can be utilized by the claimed methods. They further argue that it is irrelevant whether additional sequences are attached to the claimed compositions and that the methods claimed utilize novel and non-obvious characteristics of the polynucleotides and polypeptides disclosed. However, the issue remains that SEQ ID NO:11 is not a full-length receptor and Applicants are claiming a method of screening a substance for its ability to bind an opioid receptor by expressing a receptor comprising at least 30-100 contiguous bases of SEQ ID NO:11 when Applicants do not know the sequence of, and are therefore not in possession of, the full-length receptor. Furthermore, since Applicants are not in possession of the full-length receptor, they are not able to identify which amino acids encoded for by the polynucleotide of SEQ ID NO:11 are required for binding of a ligand to the receptor encoded for by SEQ ID NO:11. The fact that the claims recite a method for screening for compounds which affect an opioid receptor, implying that Applicants are reaching for the full-length receptor. In addition, Applicants argue that constructs such as chimeras are

encompassed by these claims. As argued in the previous Office Action, Applicants would either need to use "consisting of" language in order to prevent the claims from reading on the full-length receptor, or to recite that the nucleic acids of the claimed processes would only be able to "comprise" up to the full-length of SEQ ID NO:11. The use of "consisting of" language or "comprising up to the full-length of SEQ ID NO:11" would still allow the claims to encompass various constructs such as chimeras without encompassing the full-length receptor.

3. Claim Rejections - 35 USC § 112, first paragraph - enablement

A. The rejection of all claims under 35 USC 112, first paragraph, regarding the use of SEQ ID NOs instead of the single-letter abbreviations in the claims, has been withdrawn since Applicants have amended the claims to recite SEQ ID NOs.

4. Claim Rejections - 35 USC § 112, second paragraph

A. The rejection of claims 138-142 under 35 USC 112, second paragraph, regarding the recitation of SEQ ID NO:1, has been withdrawn since Applicants have amended the claims to recite SEQ ID NO:1.

5. Conclusion

A. Claims 91-96, 103-108, 116-122, 125-132, 134 and 135 are allowable.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
